

It has come to my attention that the FCC has introduced a new broadcast service known as (LPFM) Low Power FM. The expansion of this service could take priority over current translator service. I depend on the service provided by the current FM translators. These current translators provide a medium for radio stations like K-LOVE, 88.9 to get their positive message of the gospel of Jesus Christ into our culture. K-LOVE gives me and my boys a good alternative to all the crap that is being spewed into the airways on other secular stations...stations that would take the place of K-LOVE if the proposed (LPFM) is allowed to take affect. The effect of having K-LOVE broadcast in my area has been very positive and lives have been changed. Numerous people have commented on the positive impact K-LOVE has had in their lives. This community and many others like it need such a station to stay on the air. We need to keep the few family friendly stations like K-LOVE on the air so the message of wholesome values and positive commentary can go on being heard. Please DO NOT expand the current service, paving the way for new LPFM stations to take priority over current FM translator service. Thank You.
